## On dialog event example

Change the behaviour of the dialog when the mouse is pressed anywhere in the perimeter of the dialog

tags:  
**Snippets of Code**

```
Dim oDialog As Object
    Set oDialog = Application.AllDialogs("myDialog")
    oDialog.Start()
    '      Change event "OnMousePressed"
    '      The function might return True or False
    oDialog.OnMousePressed = "vnd.sun.star.script:Standard.myModule.myFunction?language=Basic"
    '      Cancel the event "OnKey Pressed"
    oDialog.OnKeyPressed = ""
```
