## Addremoveitem example

Display in an empty **ListBox** all dates between today and today + 9 days

tags:  
**Snippets of Code**

```

Dim ocList As Object, i As Integer, sDate As String
  Set ocList = getobject( "Forms!myForm!myListBoxDate" )
  sDate = Date
  For i = 0 To 9
    ocList.AddItem(sDate)
    sDate = DateAdd("d", 1, sDate)
  Next i

```

Remove from the added dates all the non-working days (it is assumed that, for any reason, this could not have been done while loading the dates in the box ...)

```

Dim ocList As Object, i As Integer, sDates() As String, dDate As Date
  Set ocList = getobject( "Forms!myForm!myListBoxDate" )
  sDates() = ocList.ItemData
  For i = 0 To UBound(sDates)
    dDate = DateValue(sDates(i))
    If DatePart("w", dDate, 2) > 5 Then ocList.RemoveItem(sDates(i))
  Next i

```
