On control event example

Change the behaviour of the form when a control gets the focus

tags:
[Snippets of Code](#)

```
Dim ocControl As Object
    Set ocControl = Application.Forms("myForm").Controls("myControl")
    ' Change event "When receiving focus"
    ocControl.OnFocusGained = "vnd.sun.star.script:Standard.myModule
    ' Cancel the event "When losing focus"
    ocControl.OnFocusLost = ""
```
